

WORKS INJURY TO THOUSANDS

Disastrous Effect of Injunction Granted by Judge Wellborn Upon Thriving Community.

El Centro, Cal., Feb. 13.—A lengthy resolution describing the disastrous effect upon the community of the injunction granted by Judge Wellborn of the United States circuit court closing the canal of the Holtan Power company was unanimously adopted at a mass meeting last night and telegraphed to Judge Wellborn. The resolution, after reciting that the meeting was being held by candle light, continued:

"The court's action extinguishes the lights of five towns, stops work in all the creameries in the valley, shuts down a brickmaking plant, requiring thirty horse power, closes a large steam laundry, stops the wheels in machine shops, shuts off forges and pumps, prevents the refrigeration of meat supplied to the people by butchers, threatens the loss of 220 tons of ice now on hand and deprives the people of that indispensable commodity, shuts off the domestic water supply of at least one large town, checks the industry of all sorts by depriving light and power in a territory twenty-five miles long by twelve miles wide and containing a population of at least 15,000, and works great injury to a thriving, industrious community, without doing the slightest practical good to a single human being. No relief by means of auxiliary steam power is possible inside of ninety days, and then the cost of light and power would be prohibitive.

"Resolved, That we believe the court was not fully informed of conditions when it sought to dry up the Salton sea by injunction.

GERMANY BACKING TURKEY

Other Powers at Sea Regarding the Future—Rumor of Secret Treaty Causes Disquietude.

London, Feb. 13.—The foreign office has been advised by Sir M. B. O'Connor, the British ambassador at Constantinople that Baron Marschal von Bieberstein, the German diplomatic representative, announced at the last meeting of the ambassadors to Turkey that Germany had decided instead of signing the joint note to the port demanding judicial reforms in Macedonia, to agree to the Turkish proposal that the Macedonian foreign general be placed under the control of Turkey. No confirmation has been received by the foreign office, however, of the report that Germany, Austria-Hungary and Turkey have entered upon secret treaties, but the independent action of Germany in the matter of the reforms in Macedonia has caused disquietude, as it upsets the work accomplished during the past year and makes the future uncertain. In the meantime the powers are continuing the consideration of the recommendations of their ambassadors. It is not expected, however, that the port will accept these recommendations, in view of Germany's support of the counter proposals, and it is believed that the entire question will have to be reconsidered.

PROTEST FROM DELAWARE

Alfred O. Crozier, Manufacturer of Wilmington, Sees Harm in the Aldrich Currency Bill.

Washington, Feb. 13.—Senator Tillman today presented a petition to the senate from Alfred O. Crozier, a manufacturer of Wilmington, Del., protesting against the passage of the Aldrich currency bill. It was read and will be printed in the Congressional Record. The petition strongly objects to that feature of the bill which removes the restriction of existing law against the retirement of the present banknote and the emergency currency. "Such a law," says Mr. Crozier, "would start agitation that might take from national banks the right under which they now profitably issue and loan to the people nearly \$700,000,000 of bank currency, and perhaps jeopardize the gold standard itself."

OPENING FOR BANDIT.

London, Feb. 13.—It is announced that there is a prospect of Ralsuli, the Moroccan bandit, appearing on the variety stage in London.

Picture Framing.

SALT LAKE PHOTO SUPPLY CO., Kodaks, Finishing, Framing 142 South Main.

Glad you are pleased with the advance showing of "Money-Back" Shoes for spring, 1908. Just a word about waterproof shoes and rubbers for this kind of weather. The "Money-Back" kind cost no more than the others and you can feel that you have the best money can buy. Our guarantee with each transaction.

DAVIS SHOE CO.

With the Sleuths

On Trail of Utah National Bank Robbers.

Twenty-four hours with the Sleuths on the trail of the Utah National Bank robbers.

3:30 a. m.—The public is given all of the ideas and other things on the robbery, while the detectives are furnished several columns of clues.

4:00 a. m.—The robbery is spurring heavily and his road is apparently broken by visions of the net which is being woven even as he sleeps.

4:22 a. m.—A belloy brings a paper to the room of the Pinkertons and advises them. They greedily devour the theories disclosed in its columns.

4:56 a. m.—It is authoritatively announced that the one reason that prevents the Pinkertons from arresting the man who stole the \$45,000 is that they don't know who he is.

5:11 a. m.—It is whispered that one of the employees of the bank is a somnambulist and that he may go to the hiding place of the money while asleep.

5:14 a. m.—Detectives investigate the above rumor and find that the bank at which the suspect worked was in operation until a few years ago only at night and that owing to a misunderstanding with the police relative to the distribution of the proceeds of the bank the institution closed and the employee referred to left the city.

6:20 a. m.—President McCormick orders an investigation of as many of the theories evolved as possible. The Pinkertons have assured him that they can do so within two years.

6:55 a. m.—Warden Arthur Pratt has placed an extra heavy guard about the cell of Sullivan, lest he may be tempted to go out of prison to rob a bank.

7:32 a. m.—President McCormick counts the reserve for the 101st time since the robbery.

8:05 a. m.—The one question left for the Pinkertons to solve is, What became of the money on the stolen money. Expert accountants have been employed to compute its exact amount, dating from the theft of the money.

8:16 a. m.—The office boy has just applied for a reduction in salary. His expenditures have placed him under a cloud. He says the strain is "something terrible."

9:13 a. m.—An employee who paid \$30,000 for a shirt waist set is given a severe sweating. He explains that he is conducting a smoke farm on the side.

9:59 a. m.—Agents of the Standard Oil company arrive in Salt Lake to find out where the money went to. Rockefeller doesn't want to lose track of it.

10:07 a. m.—Mr. McCormick calls the newspaper boys together and offers a prize of real money. One of the red-tailed boys explaining the robbery. He stipulates that it must be published with scare headlines.

11:04 a. m.—An expert chemist is called to make an analysis of the Volante's free soup. There is a discussion in some quarters to connect the robbery with the alleged graft in the soup kitchen.

12:15 p. m.—The robbery continues to be the topic of discussion during the lunch hour. The sheets case is proving a very poor second.

1:32 p. m.—An officer of the bank recalls that on Jan. 7 a parlor match exploded under his foot with a loud report. It is believed that the thief intended to burn the bank and thus cover up his crime.

2:06 p. m.—A remarkable discovery may throw much light on the theft has just been made. The interest of sleuths announces that the man who took the money was not a thief but an arch-robber.

3:16 p. m.—A man is seen emerging from the bank in a heavy suit and carrying a large bag. He is followed by a crowd of curious onlookers, carrots and potatoes. After studying the Salt Lake market quotations he has brought the produce in from Farmington, expecting to discharge the mortgage on his home.

4:05 p. m.—Anna Eva Fay writes that the mystery has for the present baffled her. She is still confident, however, she may be able to vindicate her client.

5:09 p. m.—The situation is still tense.

6:15 p. m.—The situation is unchanged.

7 p. m. to 2:35 a. m.—The tension is growing terrible and before long the strain must break.

3:00 a. m.—Me Gawd! the strain has broken!!!

LOCAL BRIEFS

INSANITY BOARD MEETS.

The state board of insanity held its regular meeting at Provo yesterday. Only four patients were transacted.

CURFEW TO RESUME.—The curfew whistle will resume its blowing today. The Rio Grande whistle will blow. The whistle practiced several times last evening.

PAY DAY PROX.—Teachers will receive pay day for the teachers of the public schools. The amount to be distributed by Clerk Judd is \$18,827.75.

GOES TO PROVO.—Dr. T. B. Beatty, secretary of the state board of health, went to Provo yesterday on official business.

MISSIONARY FAREWELL.—A farewell concert will be given this evening in the Tenth ward meeting house for Alvin Kedington, who is about to depart on a mission to California.

VALENTINE SOCIAL.—The Epworth League of the First Methodist church will have a Valentine social this evening in the church parlors. Comic valentines will be distributed and a fine musical program will be given.

ADDRESSED TEACHERS.—Professor Moshall Hall of the State Training school addressed the eighth grade teachers and principals of the local schools yesterday at the board of the school rooms, on the subject of "Arithmetic."

RABBI FREUND'S THEME.—At the services at Temple Emanuel, at 8 o'clock this evening, Rabbi Freund will speak on "Our Answer to the Anti-Semite." The solo, "Fear Ye Not, O Israel," will be rendered by Mrs. Edna Edwards.

GIVE VALENTINE PARTY.—The Elks last evening gave a Valentine party in their club room. When the evening was small, the local officials announced that the change is made solely for the purpose of reducing expenses. Just what the change will result in, however, is not known.

MUSICAL AT UNIVERSITY.—The musical at the university last evening was a distinct success. The attendance was about 250. All of the numbers on the program were given in a pleasing and artistic manner.

CAPTAIN SMYTH MEETS MISHAP.—Captain Lucien H. Smyth, chief deputy United States marshal, met with a mishap yesterday at his home. While engaged in carrying to the house a hod of coal a heavy lump fell upon his foot in such a manner that he will not be about for a day or two.

FORENSIC CLUB MEETING.—A meeting of the Forensic club will be held at 8 o'clock tonight at the Y. M. C. There will be a debate, speeches, music and readings. The subject of debate will be "Resolved, That girls should take advantage of the leap year privileges." The public is invited.

MYSTERY OF COAL SHED.—Police Officers Solve Problem After Long Run.

Immediately after a telephone call had come to the police station, notifying the department that a daring night prowler had concealed himself in a coal shed at the rear of 68 West Third, south street, the patrol wagon, loaded with officers, dashed to the scene. Carefully surrounding the coal shed a skirmish line of more or less determined policemen closed in on the shed.

Finally one of the officers, with less discretion but more nerve than the others, cautiously opened the door of the shed and fished therefrom a boy of 14 years. The boy explained that he had been delivering valentines to the neighborhood sweethearts and was afraid that one of his youthful rivals was following him. For that reason he concealed himself in the coal shed.

TO REMEMBER THE MAINE. G. A. R. Veterans and Allied Organizations Will Observe Anniversary.

By a coincidence the anniversary of the destruction of the battleship Maine in Havana harbor falls upon a day when members of the Grand Army of the Republic, the women's auxiliaries, the Spanish War Veterans and the other organizations will hold their observance of Lincoln's birthday. There will be a camp fire, a bean bake and all the accessories. The affair will be held in Old Fellows hall.

WASHINGTON NOTES. (Special to The Herald.)

Washington, Feb. 13.—Representative French today introduced a bill granting a quarter section of land on Fort Hall reservation to the Nez Percés Indians, which now maintain a school and church on this land.

The house of representatives today passed the Mondell bill, granting an extension of time to desert land entrymen who are unable to irrigate their lands within the four years required by law, the extension not to exceed three years. The bill also prohibits the assignment of a desert entry to companies or corporations, but permits assignments to individuals qualified to make desert entry.

Secretary Garfield submitted an estimate and recommendation to congress today for an appropriation of \$250 for marking six miles of boundary line between Montana and Wyoming along the western boundary of Yellowstone National park.

Ogden News

Office 410 Twenty-Fifth Street.

Ogden, Friday, Feb. 14.

INTEREST IN BONDELECTION

Cost of Needed Building Will Add Only .32 of a Mill to the Taxes.

As the time for a special school bond election approaches considerable interest is being manifested. The election will be held on the 15th inst. and the results, favorable, it will be the first time that bonds for school purposes have been issued.

Seventeen years ago bonds were issued in order to secure money to build the Madison, Ogden, Quincey, Engle and Five Points schools. The number attending the public schools in Ogden at that time was 1,750. Since that time the board of education has been compelled to furnish accommodations from year to year for an increase of about 200 children. The regular building fund allowed by law is small, and not sufficient to cover the expense of building and equipping large structures.

Notwithstanding the fact that the board has built and furnished the Dec. Lewis, the present high school, the four-room addition at the Mound Port, four additions at the Five Points school, a three-room addition at the Pine, a six-room addition at the Washington, a four-room addition at the Quincey, a four-room addition at the Engle and three rooms at the Madison school.

The present high school is inadequate. It was not planned for high school use, it was not adapted to modern high school work. For it is too small, the work and the efficiency of the school is impaired as a result. About two hundred students are crowded into the high school from the grades this year and there is no room for them. For botany, zoology, chemistry, physics and mathematics, a laboratory room is especially needed. There are no rooms for manual training. There are no rooms for the study of the sciences. A gymnasium, an assembly room as well as other rooms are required and are missing from the present building.

As to the cost of the new building, the proposed bond issue of \$500,000 will run twenty years at 4 per cent. It will necessitate an increase of \$2,500 in the general tax of Ogden City. This increase on the city valuation of \$1,250,000 amounts to .32 of one mill on the dollar.

ECONOMICAL

A pound of

Hewlett's Three Crown Natural Japan

Will make about 300 cups of the delicious beverage. Really the cost is so small that you cannot afford to buy any but the best, the purest and uncolored.

are in the railroad business. Will J. Jenkins, his son, is best known as the Rio Grande Western for fifteen years, and has served as a conductor for more than five years. A. Chief Engineer R. O. Hunder, General Superintendent W. L. Park and Superintendent W. A. Whitney of the Union Pacific were guests of the Weber club last evening where they met a number of Ogden business men.

This is Mr. Mohler's first official trip to Ogden, and while he talked freely of those he met at the club, he refused to see newspaper men.

"I have been so misrepresented in the past," he said, "that I cannot afford to be interviewed any more."

It was when he had reference to the recent report sent out from Omaha. General Superintendent W. L. Park said that there were number of people who were merely on a tour of inspection of the line, and denied that there was to be a general shaking up of officials on this end. He said that the abolishing of the assistant superintendent at Ogden was because the company was getting economical, and that as this was a small division the office could be abolished. He also stated that there were number of people who were merely on a tour of inspection of the line, and denied that there was to be a general shaking up of officials on this end. He said that the abolishing of the assistant superintendent at Ogden was because the company was getting economical, and that as this was a small division the office could be abolished.
